

Formed in 1950, the Weyburn Wildlife Federation began its existence to help and preserve our area's habitat for all species of fish and wildlife to ensure its sustainability for people to enjoy now and for years to come. As a non-profit charitable organization, we participate provincially and locally in as many projects as we can to enhance and support our community.

We have also been busy working at our clubhouse to tidy up our property so we can utilize it to its full potential. We will continue to rent out the clubhouse and property. Please visit our website to get more rental information. We are grateful to have this property and all the opportunities it provides and still have some amazing plans for continued growth.

Last year we had a few firsts in one year. We hosted was our first fishing derby in March and then we held our first Walleye Classic Fish Tournament in June. Both events were a huge success and brought us back and out of our shell in regrouping as an organization and getting our club active again. We had so much fun that we add a 2<sup>nd</sup> fish derby this year. These derby's and fish tournament helped us reach out to our youth and to get them out fishing.

The WWF Archery Club has hit the ground running this year. It's so great to see. The first 3D Shoot being held back in February. We also have added a few new faces to our crew and these guys have some amazing ideas to get the archery back up and running with some youth programs and getting the weekly target league up and running again. Make sure to watch our social media to find out more.

One of the programs we held, in January of 2022 was a tremendous success with the kids. The "Take me Fishing" program in memory of Glen Fleming. We were so impressed with our turnout and the kids had a blast and couldn't get enough. This will be a project we will continue both in the winter and summer for years to come!
